### Testing Companies and DNA Analyzing Websites

#### Ancestry ([www.ancestry.com](http://www.ancestry.com))

Tests only autosomal DNA, but has the advantage of extensive family trees attached to results, but only viewable to subscribers of the home version of Ancestry who submit a test.

#### Family Tree DNA ([www.familytreedna.com](http://www.familytreedna.com))

Tests autosomal, Y, and mitochondrial DNA. Results are viewable to subscribers.

#### 23andme ([www.23andme.com](http://www.23andme.com))

Tests only autosomal DNA but also provides some medical information. Results are viewable to subscribers.

#### GEDMatch ([www.gedmatch.com](http://www.gedmatch.com))

A free website that allows for the uploading of autosomal test results from other companies and provides extensive means of comparing the results.
